

Register for MarylandOnline's Annual Professional Development Day

Teaching Beyond the Prompt: Designing Learning for an AI-Enabled World *Moving beyond AI tools to focus on student literacy, meaningful assessment, and intentional course design.*

REGISTRATION IS NOW OPEN! You can register here: [MOL Professional Development Day 2026](#)

- MOL's Professional Development Day will be held from 10:00AM to 1:00PM on Friday, September 25th.
- Scroll down for more information about the keynote and session topics.
- After registering, you will receive a link for logging in to the event.
- At the end of each breakout session there will be an option for viewing/photographing a MOL completion certificate.

10:00AM to 11:00AM - Keynote: Lisa A. Clark - *Reframing Bloom's Taxonomy for the Age of AI*

This year's featured speaker is **Lisa A. Clark, EdD**, who will bring her expertise in artificial intelligence, learning innovation, and academic transformation to the MarylandOnline community.

11:00AM to 12:00PM – Deep Dive Discussion: Higher Education in the AI World

Following the keynote, these breakout sessions will include a participatory discussion of what the future of higher education will look like in a world where AI saturates both teaching and learning.

12:00PM to 1:00PM - Breakout Sessions:

- *Beyond Access: Building Student AI Literacy* – From having AI to using it well: developing the critical thinking and responsible-use skills students need for today's classrooms and tomorrow's workplaces. *Presented by Shawn Crosby (Senior Instructional Designer, Community College of Baltimore County) and Eileen Hardin (Senior Instructional Designer, Community College of Baltimore County)*
- *From Source to Course: Using AI to Develop Learning Materials* - How can faculty use AI to develop course materials without handing over the work of teaching and course design to AI? *Presented by Paul Miller (Acting Associate Vice President for Teaching and Learning Excellence, Montgomery College)*
